DETAILED ACTION

REASONS FOR ALLOWANCE

1. After further search and thorough examination of the present application claims 1-20 are found to be in condition for allowance over the prior art of record.
2. The following is an Examiner's statement of reasons for allowance: the claimed invention relates to digital communication systems and branch metric computation and add-compare-select operation in Viterbi decoders.

The first cited reference Traeber (U.S. Pat. No. 6,813,744) discloses an ACS unit for a Viterbi decoder, which compares the difference between the path metrics of two states. The second cited reference Graham et al. (U.S. Pat. No. 5,349,608) disclose a Viterbi ACS unit with renormalization.

However, as to independent claims 1, 5 and 13, neither Traeber nor Graham et al. teaches “a second combinational-logic circuit for logically operating delta most significant bits of said alpha-bit path metric difference and said sign bit of said branch metric difference at instant i to predetermine whether the magnitude of said alpha-bit path metric difference is greater than that of the negative of said branch metric difference, setting a decision bit of state S_v at instant i based on another predetermination made therein if said another predetermination is met, and setting said decision bit of state S_v at instant i to be consistent with said comparison result if said another predetermination is not met...”, as disclosed in claims 1, 5 and 13.

These limitations, in conjunction with all other limitations of the base claims were not shown by, would not have been obvious over, would have been fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks, Washington, D.C. 20231
